

## One product, a wide variety of projects: Our partner AMTEKO and its KEMPEROL variety of tasks

It is also always fascinating for us to take a look across borders and experience the work of our partners around the world. Our partner AMTEKO INTERNATIONAL from the Czech Republic is an example of exciting diversity. For example, the company's KEMPEROL applicators first applied our **KEMPER-TEC EP5 primer** to the balcony of a residential building in Prague, then sealed the object with **KEMPEROL 2K-PUR** and finally chose **KEMPERDUR Deko 2K** as a decorative protective coating, followed by the application of **KEMPERDUR CL Chips**.

The contrasting program: KEMPEROL was also used by AMTEKO INTERNATIONAL in the historic Častolovice Castle in the Czech town of the same name. There, the well in the castle courtyard in the area of the water basin needed new waterproofing. Here, too, the primer **KEMPERTEC EP5** was applied, followed by waterproofing with **KEMPEROL 2K-PUR**. The fascinating thing: Both the materials or substrates and the centuries that lie between the two buildings suggest that completely different products must have been used here. But thanks to KEMPEROL's enormous range of applications and its almost limitless adaptability, it can fully and safely perform its waterproofing tasks on surfaces of both historic buildings and modern ones.

**Project data:**

**Object:** House of Flats, Castolovice Castle

**Location:** Czech Republic

**Object size:** 20 m<sup>2</sup>

**Waterproofing system:**

KEMPERTEC EP5-Primer,  
KEMPEROL 2K-PUR,  
KEMPERDUR AC-Finish,  
KEMPERDUR Deko 2K,  
KEMPERDUR CL Chips

**Processor:**

AMTEKO international, s.r.o

**Year of execution:** 2017 and 2019

**Manufacturer:**

Kemper System GmbH & Co. KG  
Holländische Straße 36  
D - 34246 Vellmar  
Tel.: +49 (0) 561-82950  
Fax: +49 (0) 561-829510
